EDUCATION

Btech in Information Technology
Vishwakarma Institute of Information Technology

08/2020 - Present   *CGPA-9.29*

HSC
Sanjivani Junior College

06/2018 - 03/2020   *Percentage-86.46*

PROJECTS

Portfolio Website
- An interactive and responsive Personal Portfolio Website using ReactJs

Automatic Timetable Generator
- The Automatic Timetable Generator software employs AI to generate timetables automatically and is specifically designed for departmental use. The software utilizes the Genetic Algorithm to achieve this.

Medicare Website
- The Centralised Hospital Management System enables patients to book appointments with specialist doctors using the system. The system utilizes ReactJs, Node Js, and MongoDB technologies.

Jenkins-GitHub CI/CD Pipeline Integration
- The process involves integrating Jenkins with GitHub.
- Developers can easily manage, test, and deploy their code changes, enhancing software development efficiency and reliability.

WORK EXPERIENCE

SIP Intern (Study and Research Project)
Vishwakarma Institute of Information Technology

07/2021 - 09/2021
This project aims to measure blood glucose levels non-invasively using NIR optical technique. This method offers a solution to the issues associated with invasive measurement, such as the need for finger puncturing and the risk of infection.

work
- Designed and developed a simulation model utilizing Proteus software.
- Collaborated with other interns to accomplish various tasks.
- Submitted Shedule report to Mentor.

SKILLS

C   C++   Python   OOPS   SQL   Probelm Solving   DSA   Operating System   Communication Skills   HTML   CSS   ReactJS   Cloud&Devops
